

PT. KALPATARU TIRTA KENCANA

PT Kalpataru Tirta Kencana is a leading manufacturer and exporter of high quality processed coconut products from Indonesia. We specialize in producing premium Coconut Shell Charcoal and Activated Carbon to meet various global industrial needs—from manufacturing, water and air filtration, to the energy industry.

Armed with the best local coconut raw materials, controlled production processes, and compliance with international quality standards, we are committed to becoming a reliable, sustainable, and timely supply chain partner for our clients around the world.

Why Choose Us?

Premium Raw Materials: Utilizing high quality coconut shells from the coastal areas of Indonesia that are rich in natural carbon content.

Tested Quality: Our products go through periodic laboratory tests to ensure moisture content, ash content, and iodine number according to export standard specifications.

Sustainability & Environmentally Friendly: We implement a clean production process, free of harmful chemicals, and support sustainable coconut farming practices.

Global Reach: International delivery (FCL/LCL) with complete export documents (MSDS, Surveyor Report, Certificate of Origin, etc.).

PRODUCT CATALOG

Sustainably sourced, rigorously tested, and delivered globally for industrial and commercial excellence.

COCONUT SHELL CHARCOAL

Crafted from selected coconut shells, offering high calorific value, low ash content, and long-lasting burn. A clean, highly efficient energy solution for briquettes, culinary, and industrial uses.

COCONUT SHELL ACTIVATED CARBON

Features a high-density microporous structure with superior adsorption capacity. Highly effective for drinking water purification, air filtration, gas treatment, and food & pharmaceutical processing.

PALM SHELL ACTIVATED CARBON

A cost-effective and eco-friendly filtration solution. Engineered with high mechanical hardness, ideal for industrial wastewater treatment, general water filtration, and various technical applications.

PRICES LISTED ARE INDICATIVE AND SUBJECT TO NEGOTIATION BASED ON ORDER VOLUME, SPECIFICATIONS, INCOTERMS, AND MARKET CONDITIONS. CONTACT US FOR A FORMAL QUOTATION.
